

February 12, 2001
To Whom It May Concern:
I am writing at this time
to urge you to grant petition
98P-0151-CPI as this will
prohibit the slaughter of downed
animals. I am hoping this
would encourage the better
treatment of livestock when
loading, transporting and
holding livestock prior to the
auction and sales. If not
this year, please support next
year. For a Better World!
